

# It's a Miracle!

Dee Simmons is a dynamic Christian woman who at the age of 64 continues to inspire others through her unwavering commitment to her faith, her family, her business, and the community.

In 1987, Dee was diagnosed with breast cancer. After an eight-hour operation for a modified radical mastectomy, she knew that she must take total charge of her life. Dee quickly admits that her illness immediately changed her priorities. She began counseling cancer patients and their families. After recovery, Dee also began to teach others the importance of proper nutrition through counseling and as a nutritional speaker on television and at seminars nationwide.

Today, she is the Chairman of her own nutritional company appropriately named, Ultimate Living International, Inc. Her mission to help others achieve better health and to make a positive difference in their lives is evidenced by her hands on participation in every aspect of Ultimate Living International.

Dee is the author of Dee Simmons, 7 Days to Feeling Better and Looking Younger, Surviving Cancer, and Ultimate Living, as well as Natural Guide for Healthy Living, co-authored by her daughter, D'Andra Simmons.
